

# NOTIFICATION OF ELECTRICAL POWER ISOLATION

To ensure a safe and reliable electricity supply system, Facilities Management Division (FMD) is executing a programme to repair and replace electrical switchboards at the Wollongong Campus.

To carry out these works, isolation of electrical power will be required within your building as follows:

<b>BUILDING:</b>	36
<b>SWITCHBOARD/S:</b>	DB-5                      DB-7                      DB-COMP1
<b>AREAS EFFECTED:</b>	Refer to attached switchboard circuit schedules and layout drawing.
<b>DATES &amp; TIMES:</b>	Refer to attached programme

Prior to the above stated date and time, FMD recommends the following:

- To minimise risk of damage, disconnect and unplug any sensitive electronic equipment
- Shut down your computer to prevent loss of any unsaved data
- Avoid opening fridges and freezers during the interruption to keep items cool

Unforeseen circumstances may cause the date and/or time of this isolation to change. FMD will issue an updated notice should this occur.

We apologise for any inconvenience. Please be aware that FMD will not be liable to pay compensation for damage, loss, or inconvenience incurred due to this essential maintenance being performed.

#### To Contact us:

If you have any questions regarding the proposed works, or if you have critical equipment that cannot be isolated in your building please contact the FMD Service Centre (4221 3217 or [fm-service-centre@uow.edu.au](mailto:fm-service-centre@uow.edu.au)).
